

**CUSTOMER SERVICE CENTRE****SUPPLEMENTARY APPLICATION FOR WORKBOAT LICENCE**

Since printing the enclosed Business Craft Licence application form, we have introduced a new low cost licence for vessels used solely and exclusively for waterway maintenance work. The rationale for this new licence type is to encourage the use of the waterway for transporting materials, labour and equipment to maintenance sites

To qualify for this licence, you must complete the declaration below, and have it authorised by the Waterway Operations Manager. Enclose it with your completed full business licence application or renewal form.

The normal moorings, insurance and BSS (where applicable) requirements must be fulfilled.

Licence terms and conditions are as set out in the current Business Licence Fees and Conditions booklet.
